***“Independently Healthy
-- The Key to Becoming Recession Proof”***

Dear Friends,

True Healing stands the test of time. Over the years, I have witnessed amazing transformation of friends, as they walk out of bladder infection, eczema, asthma, breast cancer, high blood pressure, hyperactivity, bronchitis...Even a non-believer like my father has finally tuned in, and is well rewarded with a recovery he could never imagined possible, **for who would imagine that an old man in his 70s, suffering from more than 20+ years of psoriasis, now struck with a minor stroke could ever get better without a visit to the doctor?**

But yes, he did it! Not only did he recover from his stroke, he is finally walking out of psoriasis! And he did it without doctors, treatments, medication, herbs, acupuncture, enemas, and whatever treatments you can think of.

All these would be impossible without the immeasurable and never-ending help from **Ray**. My father finally learnt that there is no use looking outside for cures, and the only way is to look within and surrender to become a good student of life.

My family's extraordinary experience with true healing is what I like to share with all families. At a time when economy is bad, a father's stroke could mean further depletion to a family's reserves and more burden. **We have proven that the simple but profound healing principles of Our Place, i.e. Fasting, Sunshine, Pure Eating and Self-care is the *ultimate* health insurance that pays off in dividends you can't even begin to quantify.**

Ray told my father that he is learning to become “**a good ancestor**”. Do you understand what this means? Won't our courage and example to live right, become the guiding star for our children and grandchildren?

There is indeed much more to healing than we ever imagined. Health is not only our responsibility to ourselves, it's also our responsibility to the future.

So, my dear friends, get tune in now! **Ray Kent will be here to conduct this 4D3N Health Week. This will be his last trip to Asia, as he will be settling in Arizona for good.** If you are serious about learning to live disease-free, save your precious lifetime and money, then come and educate yourself about **life's oldest secrets to rejuvenation, longevity and happiness!**

Learn to live and be truly happy.

*All the very best,

Testimonials

“Today, almost a year from my struggle with potentially serious health conditions, I've emerged a totally different person, not only physically but in all aspects. That, I would assume, is what Ray meant by holistic healing. My commitment to eating and living responsibly has enabled me to wear jeans again, something I haven't been able to do in years. My bladder has been tamed to the extent that I sometimes forget its existence. The bleeding that I've had in my kidneys since childhood has mysteriously disappeared though I'm not drinking half as much water as I used to. I am forgetting what it feels like to be suffering from a bout of gastritis. ~ **Joanne, Singapore.**

“When I got pregnant, I was determined to do what is right for my baby. Siok Khoon and Ray have been a great help by offering advice whenever I call them. For a first time mum, I have a short labor (9hrs). It was natural birth and I did not feel the need for any pain killer. I gave birth to a healthy baby boy, and till now, I continue to practice Ray's teachings, and my baby is the best proof that I am doing the right thing for him.~ **Katerina Tan Clark, Singapore**

“By the fourth day of the fast, my skin has started showing signs of improvement, and this continued until all was healed. Through this fast, I have not only eliminated toxins in my body, it has also allowed me to experience how it is like to get rid of my old self and create a new body and mind. And that means all the wrong dietary habits and perceptions have to go. Water fasting is truly fantastic!~ **Kwai Fong, Malaysia**

“Unlike the juice fasting I did last time, I see greater benefits from this water fast. I used to think that something is wrong with my "spiritual" state of mind that prevents me from breaking through my fear and taking action. But after the fast, I know it's all because of the toxins that are locked in the body that affected my emotions and guts.” ~ **Woon Kiat, Malaysia**
